

One My Lab

Scientific, compliant, one-stop laboratory and data
service platform for clinical trial

Your best central laboratory partner for clinical trials in China.

Since 2008 In China for global

KingMylab is one of the earliest labs of its kind in China and a leading provider of central laboratory services for clinical research. We are committed to delivering scientific, compliant, and comprehensive one-stop laboratory and data service solutions for clinical trial, supporting pharmaceutical and biotech partners both locally and globally. Founded in 2008 as the Clinical Trial Department of Guangzhou KingMed Diagnostics (ICL) —China's largest clinical diagnostics corporation—KingMylab became an independent entity in 2020, continuing its pioneering role in central lab services.

Multi-regional Clinical Trial

Extensive global strategic partner and clinical expert resources, providing multi-country, multi-center laboratory solutions.

50+ Accumulated experience in executing MRCT projects

10+ Disease areas covered by MRCT projects
Oncology, cardiovascular, vaccines, infections, endocrinology, immunology, etc.

10+ Sample types imported by MRCT projects
Serum, plasma, sections, paraffin blocks, urine, etc.

Advanced&Scientific Quality Assurance

Comprehensive compliance with the GLP/GCP regulatory requirements of NMPA, FDA, and EMA, with dual accreditation of CAP & ISO15189 laboratory.

105 NMPA Inspections

17 Years of project Experience

One-stop lab service platform for clinical trials

5 FDA/EMA Inspections

50 New Methods Validated Per Year

Central lab

- Comprehensive technology platforms, providing integrated multi-omics solutions
- Over 4,000 established testing items
- Robust assay R&D capabilities

Bioanalysis

- A fully equipped bioanalytical platform
- Offering PK and immunogenicity analysis for large molecules, CGT, vaccine

Data service

- Biomarker discovery and exploration
- Offering high-value-added data analysis services
